

**Track A:**  
 – Users,  
 – dissemination,  
 – promotion, communication  
 & visualisation  
 ...of official statistics

**Track B(i):**  
 Statistics on cross-border phenomena and  
 globalisation; comparability of statistics

**Track B(ii):**  
 Statistics on markets

**Track C:**  
 Statistical modelling

**Track D(i):**  
 Sharing of statistics and data

**Track D(ii):**  
 Multisource statistics

## Draft programme of the 2016 Conference of European Statistics Stakeholders (CESS 2016)

20 October	08:00-09:00	Registration				
	09:00-10:00	Plenary session	Session A1. Opening session			
	10:00-10:30	Coffee				
	10:30-12:00	Plenary session	Session A1. Opening session (cont.)			
	12:00-13:30	Lunch				Session D2. Lunchtime lecture on Linked Open Data; 12:05-12:45
	13:30-14:30	Parallel sessions	Session A3. Value of official statistics - how to convince our stakeholders?	Session B3. Official statistics on cross-border phenomena	Session C3. Timely estimates of economic indicators	Session D3. The partnership between official statistics and scientific research – where will it take us next?
	14:45-15:45	Parallel sessions	Session A4. Visualisation of official statistics	Session B4. How Inter-Country Input-Output Tables provide comprehensive information in the internationalisation of the economies: insights at European and global level	Session C4. Indirect Questioning for Sensitive Issues	Session D4. Access to statistical data and research
	15:45-16:15	Coffee				
	16:15-17:15	Parallel sessions	Session A5. Exploring new ways to communicate statistics	Session B5. Globalisation and productivity growth	Session C5. Modelling in the context of official statistics	Session D5. Anonymity and re-identification risks
17:30-18:30	Parallel sessions	Session A6. Communication of statistics in a digital age	Session B6. Trade and multinational enterprises	Session C6. JDemetra+: An innovative expandable tool for seasonal adjustment, time series analysis and beyond.	Session D6. Sharing and disclosure of data and statistics	
20:00-	Conference dinner					
21 October	09:00-10:00	Parallel sessions	Session A7. Getting to know the users and uses of official statistics	Session B7. Promoting comparability in international statistics	Session C7. Challenges and changes of the European Region	Session D7. Big Data Analysis from Classification to Dimensional reduction
	10:00-10:30	Coffee				
	10:30-11:30	Parallel sessions	Session A8. Engaging with users	Session B8. Migration	Session C8. Small Area Estimation	Session D8. New data and new perspectives in observing the reality in the age of Data Revolution
	11:45-12:45	Parallel sessions	Session A9. Collaboration and communication with the users of official statistics	Session B9. Comparability in surveys and statistics	Session C9. Small area estimation and weighting	Session D9. Use of administrative data sources
	12:45-14:15	Lunch				Session C10. Poster session (presenters at posters 12:50-13:30)
	14:15-15:15	Parallel sessions	Session A11. Enhancing statistical culture	Session B11. Data needs to monitor the real estate markets	Session C11. New methods for data analysis: from design to model-based estimation	Session D11. Integration of data from several sources and use of administrative data
	15:30-16:30	Parallel sessions	Session A12. Statistical Literacy and Accreditation of Statistical Professionalism	Session B12. Methodologies and challenges for financial market indicators	Session C12. Model-based data analysis methods: challenges and issues	Session D12. Multisource statistics
	16:30-17:00	Coffee				
	17:00-18:00	Plenary session	Session A13. Closing session
