

## National accounts of Hungary, 2017 (2nd preliminary data)

Hungary's gross domestic product (GDP) at current prices was HUF 38,355.1 billion in 2017, growing by 4.1% at constant prices compared to the previous year. The amount of gross domestic product per capita was HUF 3,919 thousand, equal to EUR 20,522 in purchasing power standard. The deficit of the general government sector was HUF 849.2 billion in 2017, 2.2% of GDP according to preliminary data of national accounts.

This publication contains the 2nd preliminary data of the national accounts of Hungary for 2017 and final data for 2016, which were compiled in line with the ESA2010 methodology, introduced in 2014.

During the compilation of preliminary national accounts for 2017, the backward data were revised due to routine revisions, corrections of errors

during the checking and finalisation of data, inclusion of the results of compiling supply and use tables for 2015 and inclusion of changes in the data sources used for the calculations.

At the time of compiling preliminary national accounts as included in our present publication for 2017, the data sources for 2017, necessary for the calculations, were not fully complete, therefore all data for 2017 are preliminary, finalised data may differ from these. Data for 2017 include the differences between quarterly and annual calculations in addition to the effect of methodological changes.

Further detailed data will be published on HCSO website, under Data/Tables as well as in the [Dissemination database](#), on 2 October. The quarterly time series will also be updated on 2 October.
