**Who do you usually spend time
with in the evening?**

How to use time of teenagers provide important information about the youth growth.

(Huebner & Mancini, 2003).

The concentration was better when teenagers were alone in their daily life than when they were with other people.

(Csikszentmihalyi & Larson, 1984).

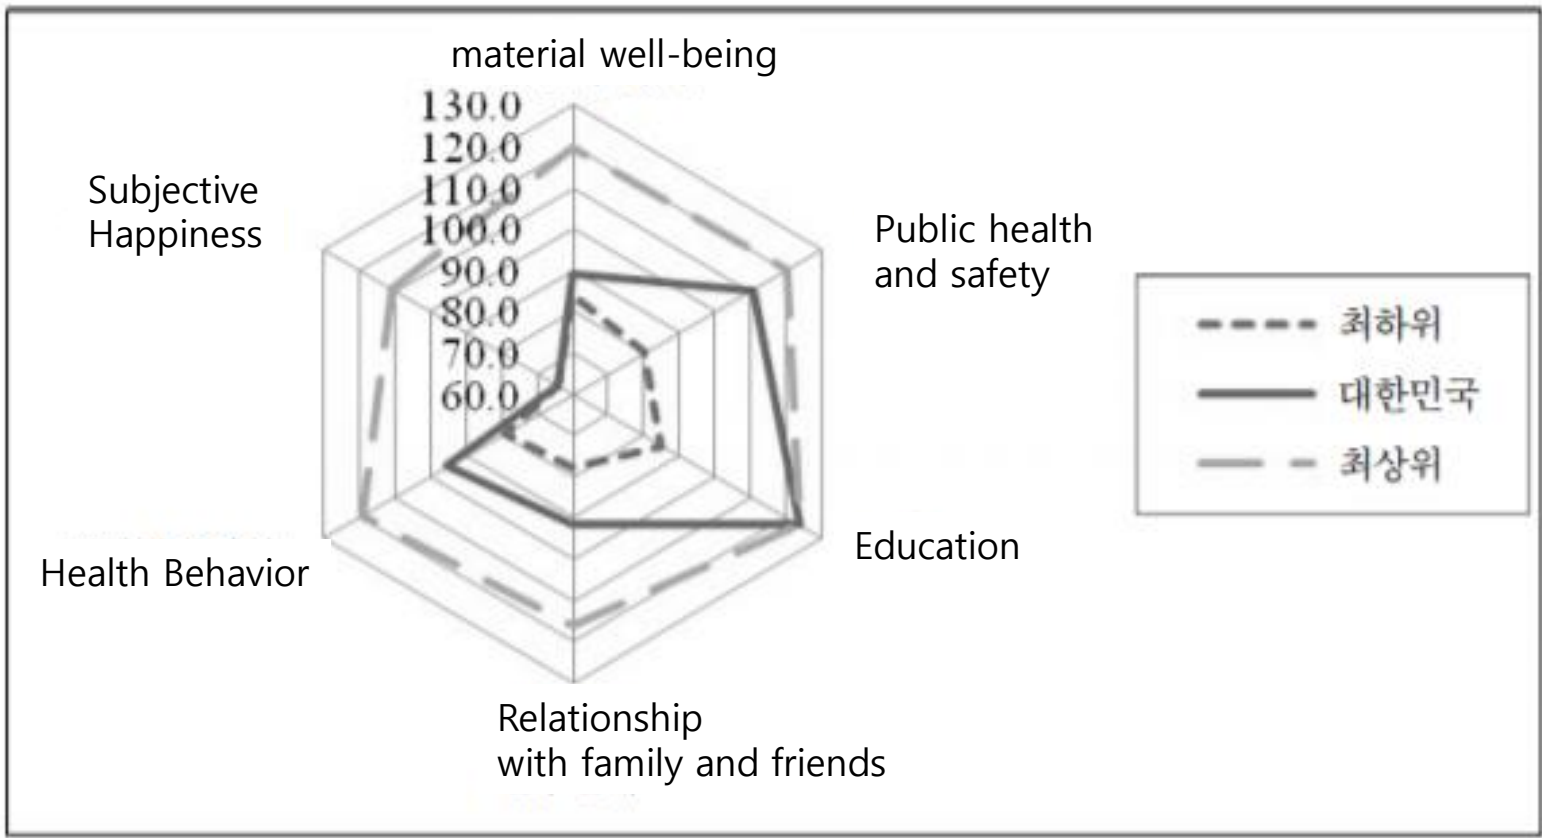

In an international comparison of the OECD 33 countries for the child well-being index, Korea has unfortunately ranked low for 11 years since 2008.

Collection of Korean Child Well-Being Index
and Its International Comparison with other OECD Countries
(Yonsei University's Social Development Research Institute,
2010) :

“The level of their satisfaction is significantly high with
parents.”

“With Who – weekend”

Two main reason why Korean teenagers spend the evening alone

1. A lot of private education time due to competition
2. Their parents work a lot

Hours worked (OECD, 2018)

Summery

- They are alone in the evening.
- The main activity is private education and doing self-study.
- They feel alone, when they study
- There are not enough time with parents in weekdays.
- Main reason: A lot of private education time due to competition.

Their parents work a lot.
