

Small Creatures in a Vital Role

30 APRIL, DAY OF THE BEES

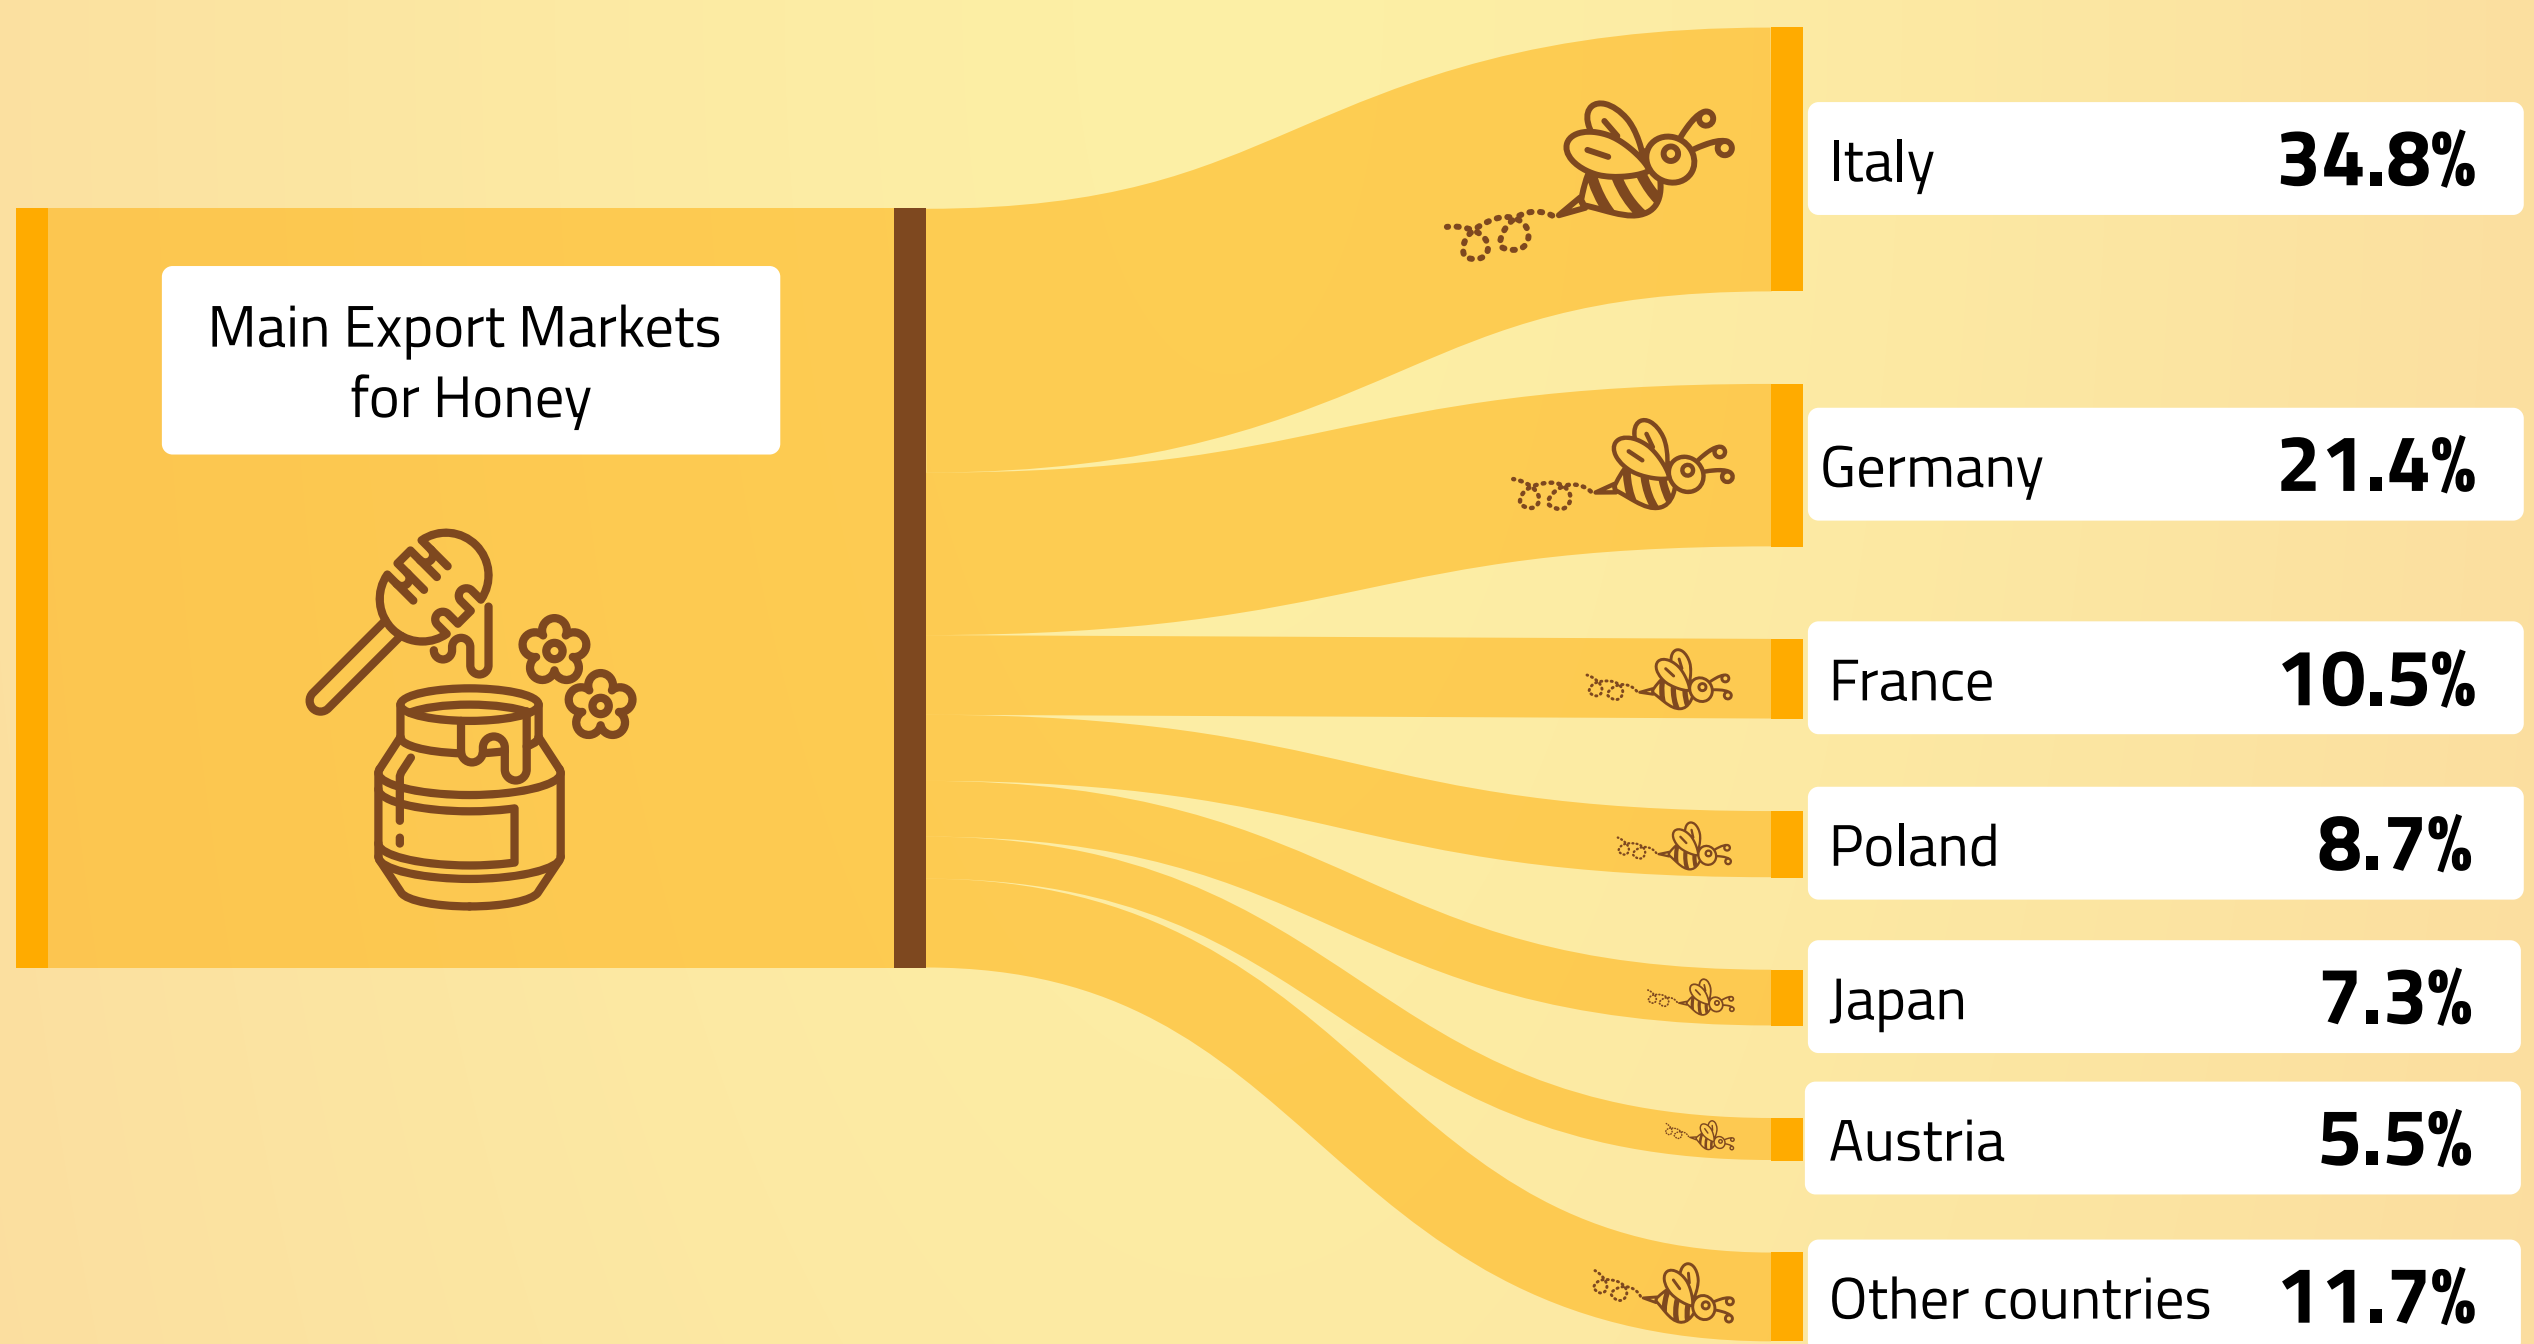

Over the past fifteen years, **Hungary's** honey production has fluctuated between 14,000 and 32,000 tonnes, making the country **one of the European Union's major honey producers.**

Honey Production in Hungary, thousand tonnes

Most of the honey produced in Hungary is sold on foreign markets. The most important export destinations are **Italy**, **Germany** and **France**, as well as **Japan** outside Europe.

Main Export Markets for Honey, 2025

Domestic honey consumption is predominantly household based. The consumer price of one of **the most popular honey types, acacia honey**, peaked in 2023 and has since moderated. In 2025, 1 kg of acacia honey cost 5,500 forints.

Consumer Price Trend of Acacia Honey
