

**ECHI SHORTLIST, RELEASE OF JUNE 2008**

Complete metadata for the indicators available in the ECHIM Documentation Sheets, at [www.echim.org/docs/documentation\\_sheets.pdf](http://www.echim.org/docs/documentation_sheets.pdf)

<b>TOPIC/INDICATOR</b>
<b>A) Demographic and socio-economic factors (9)</b>
<ol style="list-style-type: none"> <li>1. Population by sex/age</li> <li>2. Birth rate, crude</li> <li>3. Mother's age distribution</li> <li>4. Total fertility rate</li> <li>5. Population projections</li> <li>6. Population by education</li> <li>7. Population by occupation</li> <li>8. Total unemployment</li> <li>9. Population below poverty line and income inequality</li> </ol>
<b>B) Health status (32)</b>
<ol style="list-style-type: none"> <li>10. Life expectancy</li> <li>11. Infant mortality</li> <li>12. Perinatal mortality</li> <li>13. Disease-specific mortality; Eurostat, 65 causes</li> <li>14. Drug-related deaths</li> <li>15. Smoking-related deaths</li> <li>16. Alcohol-related deaths</li> <li>17. Excess mortality by heatwaves</li> <li>18. Selected communicable diseases</li> <li>19. HIV/AIDS</li> <li>20. Cancer incidence</li> <li>21. Diabetes</li> <li>22. Dementia</li> <li>23. Depression</li> <li>24. AMI</li> <li>25. Stroke</li> <li>26. Asthma</li> <li>27. COPD</li> <li>28. (Low) birth weight</li> <li>29. Injuries: home/leisure, violence</li> <li>30. Injuries: road traffic</li> <li>31. Injuries: workplace</li> <li>32. Suicide attempt</li> <li>33. Self-perceived health</li> <li>34. Self-reported chronic morbidity</li> <li>35. Long-term activity limitations</li> <li>36. Physical and sensory functional limitations</li> <li>37. General musculoskeletal pain</li> <li>38. Psychological distress</li> <li>39. Psychological well-being</li> <li>40. Health expectancy: Healthy Life Years (HLY)</li> <li>41. Health expectancy, others</li> </ol>

**C) Determinants of health (14)**

42. Body mass index
43. Blood pressure
44. Regular smokers
45. Pregnant women smoking
46. Total alcohol consumption
47. Hazardous alcohol consumption
48. Use of illicit drugs
49. Consumption/availability of fruit
50. Consumption/availability of vegetables
51. Breastfeeding
52. Physical activity
53. Work-related health risks
54. Social support
55. PM10 (particulate matter) exposure

**D) Health interventions: health services (29)**

56. Vaccination coverage in children
57. Influenza vaccination rate in elderly
58. Breast cancer screening
59. Cervical cancer screening
60. Colon cancer screening
61. Timing of first antenatal visits among pregnant women
62. Hospital beds
63. Physicians employed
64. Nurses employed
65. Mobility of professionals
66. Medical technologies: MRI units and CT scans
67. Hospital in-patient discharges, limited diagnoses
68. Hospital daycases, limited diagnoses
69. Hospital daycase/in-patient discharge ratio, limited diagnoses
70. Average length of stay (ALOS), limited diagnoses
71. General practitioner (GP) utilisation
72. Other outpatient visits
73. Surgeries: PTCA, hip, cataract
74. Medicine use, selected groups
75. Patient mobility
76. Insurance coverage
77. Expenditures on health
78. Survival rates cancer
79. 30-day in-hospital case-fatality AMI and stroke
80. Equity of access to health care services
81. Waiting times for elective surgeries
82. Surgical wound infections
83. Cancer treatment quality
84. Diabetes control

**E) Health interventions: health promotion (4)**

85. Policies on ETS exposure (Environmental Tobacco Smoke)
86. Policies on healthy nutrition
87. Policies and practices on healthy lifestyles
88. Integrated programmes in settings, including workplace, schools, hospital
