

## Transition of Earnings Statistics to the TEÁOR'25 Classification

Budapest, 17 June 2026 – **As of 17 June 2026, the Hungarian Central Statistical Office (HCSO) will transition its earnings statistics to the TEÁOR'25 classification system (the Hungarian implementation of the NACE Rev 2.1 classification of economic activities). Data compiled according to TEÁOR'25 will be published retrospectively back to 2019.**

Monthly earnings and headcount data will change only with respect to sectoral breakdowns, due to the reclassification differences between TEÁOR'08 and TEÁOR'25.

### Impact of sectoral reclassifications affecting at least 1,000 persons due to the TEÁOR transition

Group, class	Section	
	TEÁOR'08	TEÁOR'25
Repair and maintenance of motor vehicles	(G) Wholesale and retail trade; repair of motor vehicles	(T) Other services
Day nursery services for children	(QB) Social care	(Q) Education
Organisation of building construction projects	(F) Construction	(M) Real estate activities
Information services	(JC) Information technology and information services	(J) Publishing and broadcasting

The regular earnings and labour income data also change at the national-economy level, due to the sample-based nature of one of the quarterly data sources underlying the statistics. The change in per-capita regular earnings and labour income remains below 1% at the national-economy level in all periods.

In the STADAT tables, data with the new sectoral breakdown will be published retrospectively back to 2019. In the Disseminations database, a new dataset will be created, also containing monthly data compiled according to TEÁOR'25 back to 2019. In the Dissemination Database, as well as for individual data requests, TEÁOR'08-based data will remain available until 2030.

Key information related to the TEÁOR transition—including a short description and structure of TEÁOR'25, as well as the correspondence table between TEÁOR'08 and TEÁOR'25—can be found on the HCSO website under the following section: [Classifications – Standard Industrial Classification of Economic Activities \(TEÁOR'25\)](#). The above changes apply to data for the period 2019–2025.
