

Peter’s and Paul’s Day, beginning of harvest

29 JUNE

Records from the history of ear cereal production in Hungary*

Timeline on largest sown area, production and specific yields of different cereals, 1925–2024

Average yield of major cereals, 1930–2024

The specific yield of wheat, barley and rye alike was very favourable in the past some one and a half decades, so it was considerably higher in this period than the earlier records before 1990.
