FEATURED TOPIC

Spatial Characteristics of Commuting

Commuting links between Hungary's settlements, 2022

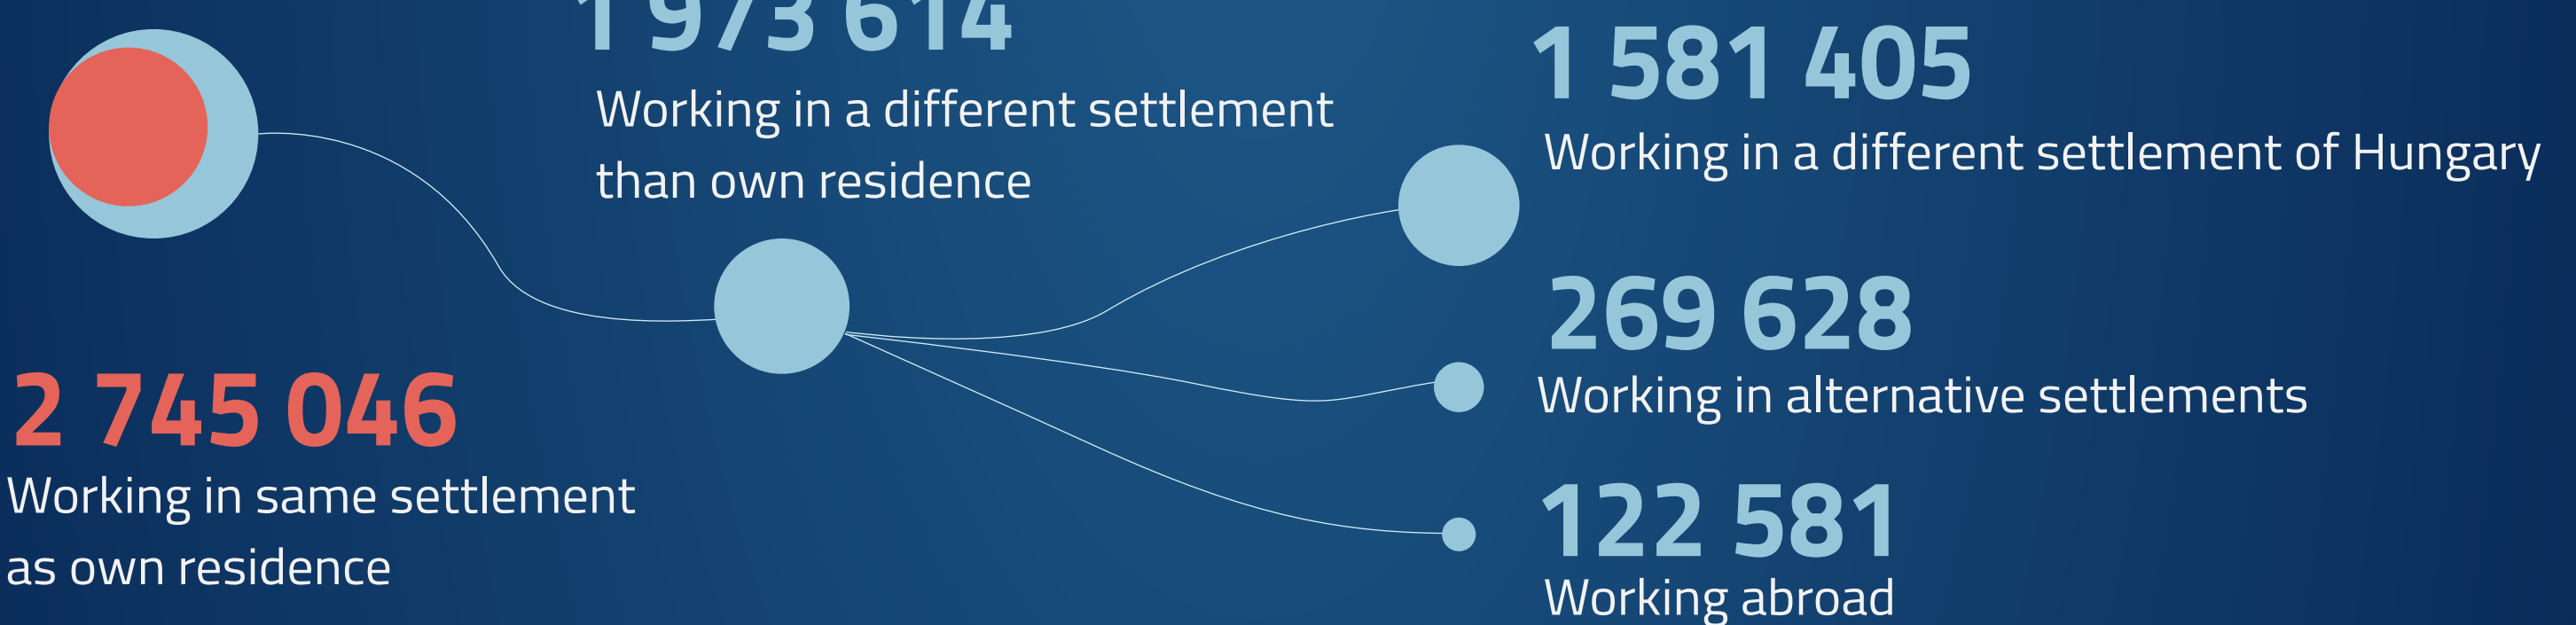

Proportion of outward commuting from own residence

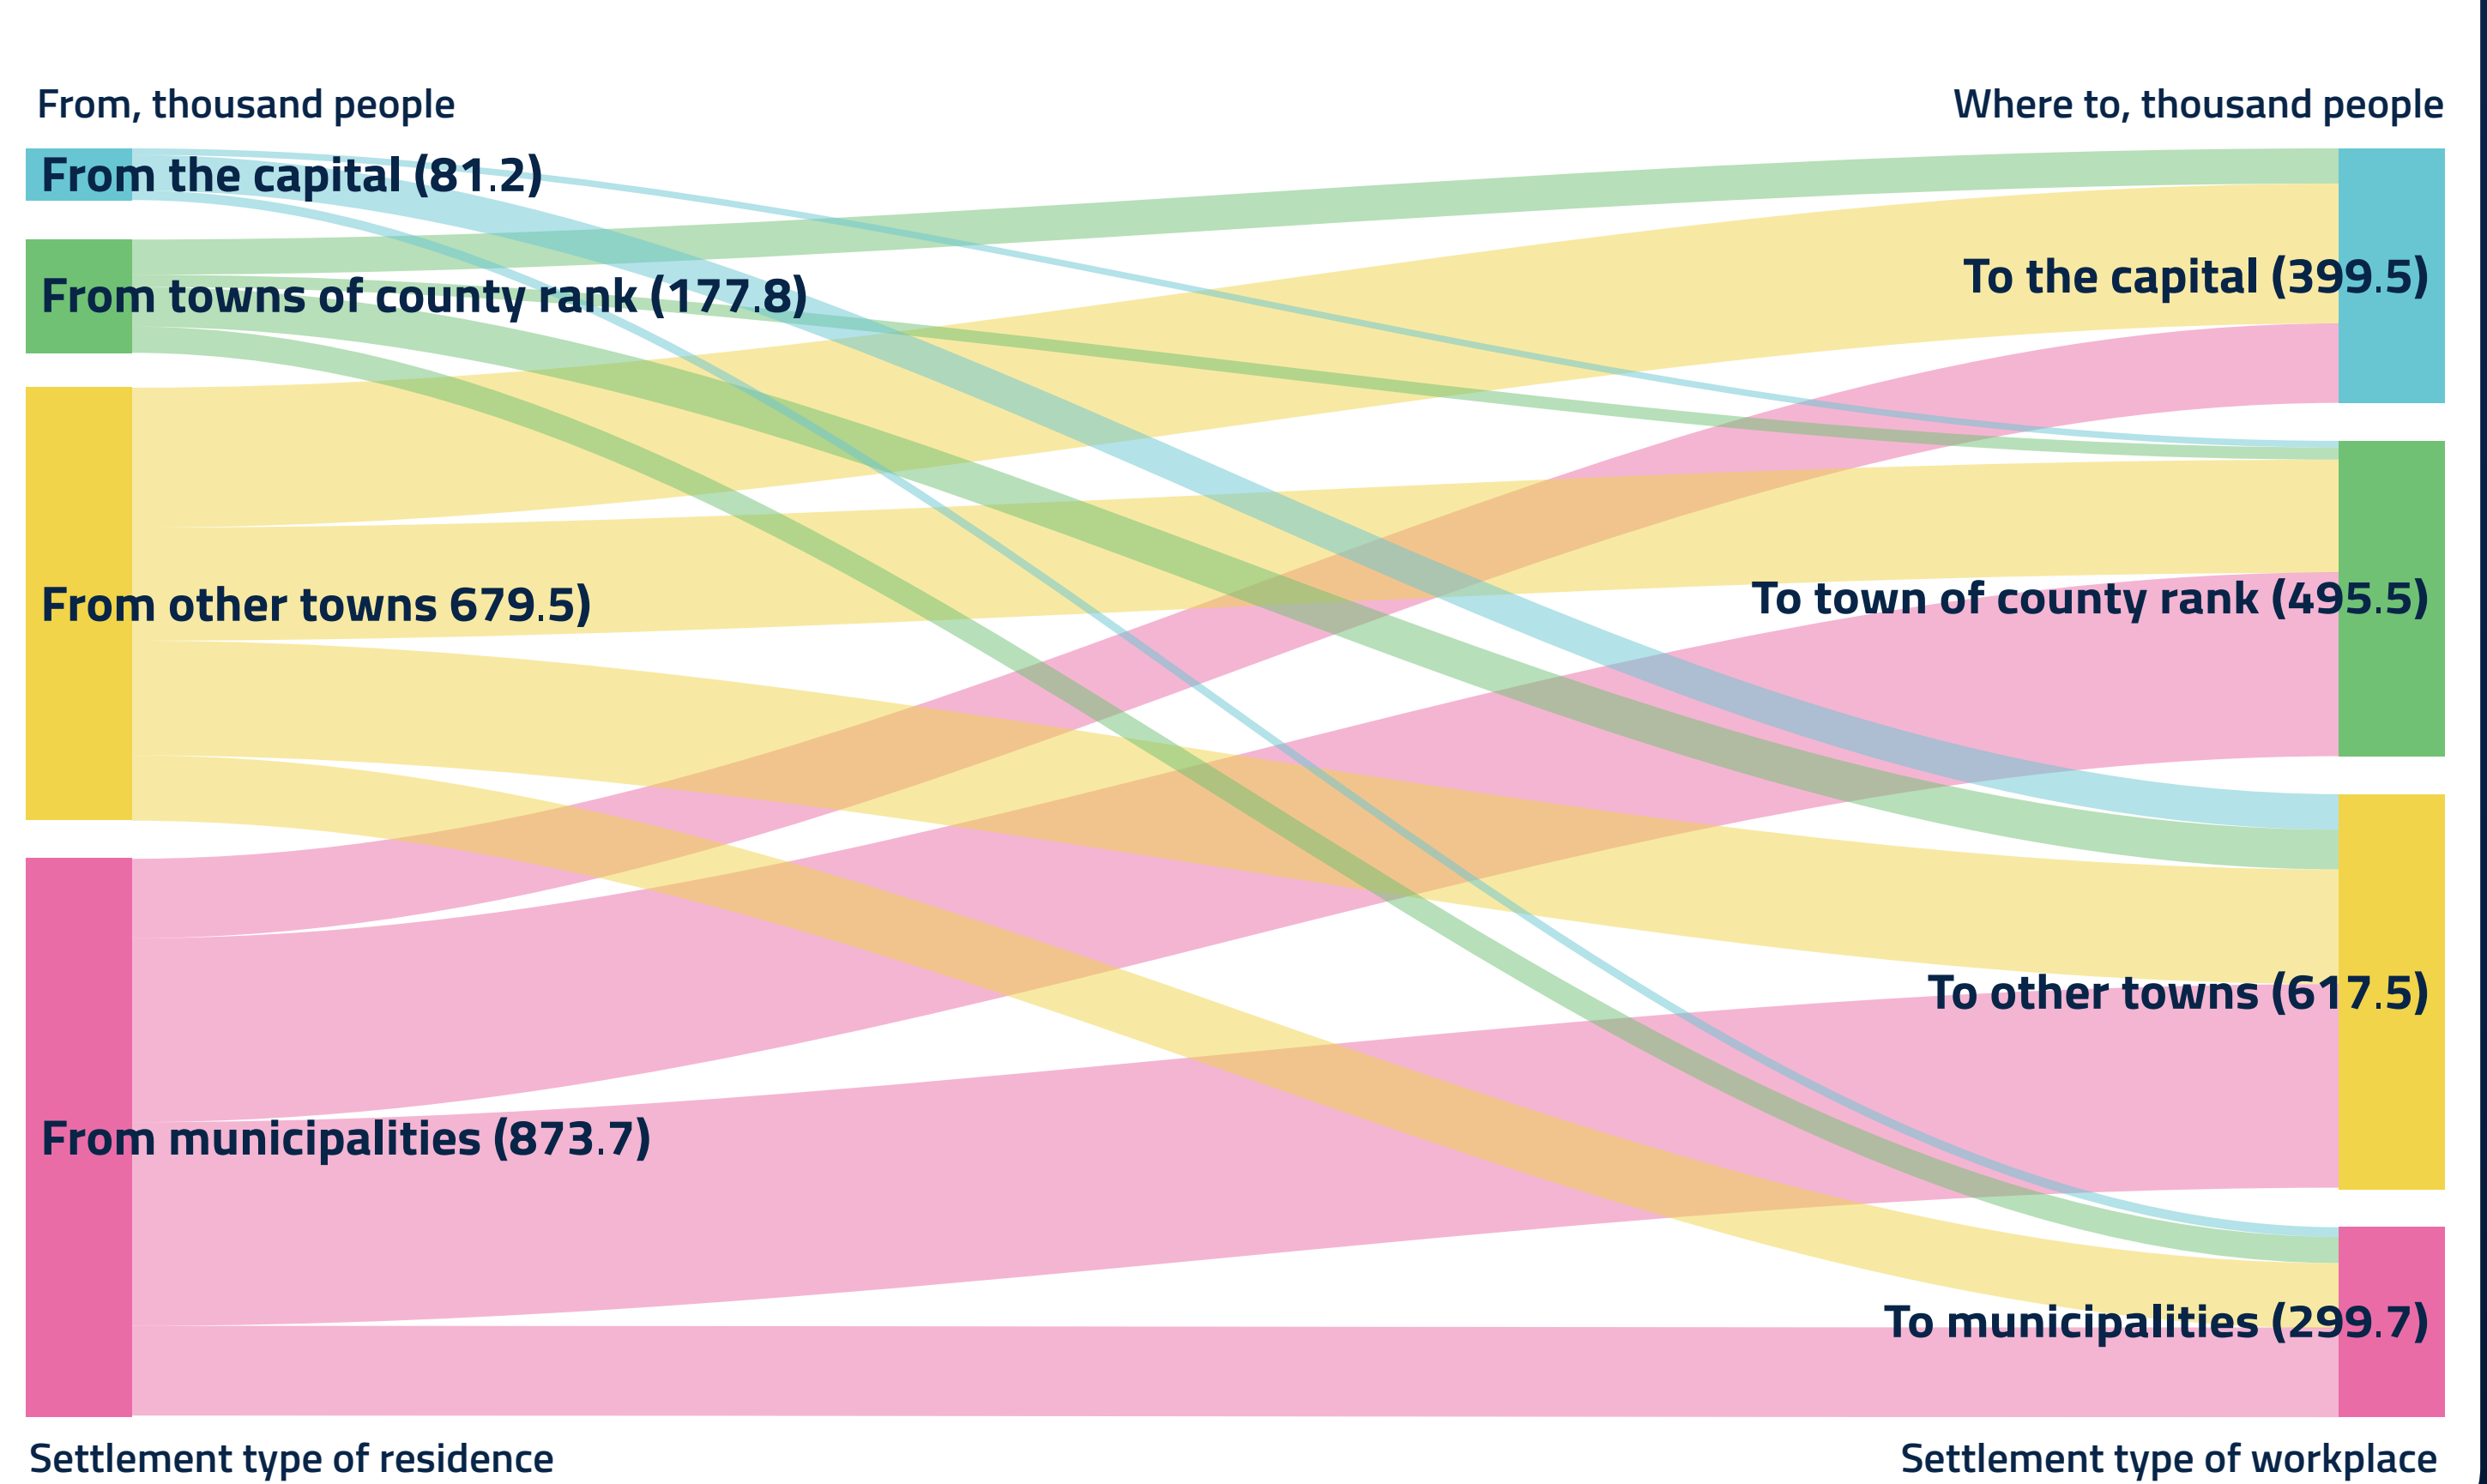

Distribution of employees by place of work, 2022

4 718 660

Employed

Workforce-flow between Hungary's settlements by settlement types, 2022

Considering settlement hierarchy, upward commuting (meaning toward the capital as well as to towns of county rank, from municipalities toward towns) is more frequent.
